Om Swastiastu!

Dear Retreat Leader,

Floating Leaf Eco Retreat was created as a sanctuary for retreat leaders and their communities — a place where transformation unfolds naturally through culture, connection, and the healing rhythms of Bali. Rooted in authentic Balinese tradition and guided by our dedicated village family, our retreat center offers an environment that nourishes the nervous system, inspires creativity, and supports profound personal and collective growth.

Here, you and your participants are held with intention, care, and warmth. Whether you are returning to Bali or arriving for the first time, we welcome you into a space designed to support meaningful transformation, seamless retreat flow, and deep cultural immersion.

Warmest regards,
The Floating Leaf Team

ABOUT FLOATING LEAF

Floating Leaf Eco Retreat is more than a venue — it is a living expression of Balinese culture, sustainability, and spiritual devotion. Built in partnership with our local village and maintained with reverence for the land, the retreat is designed to harmonize with its surroundings and uplift all who enter.

We specialize in hosting **transformational retreats**, offering retreat leaders a trusted partner who handles details with expertise so you can focus on your teachings, community, and purpose. Our commitment to authenticity, environmental stewardship, and emotional well-being shapes every experience we curate.

When you host with us, you enter into a relationship — one that honors balance, sustainability, cultural respect, and the shared intention of creating meaningful change.

OUR GUIDING PRINCIPLES

At Floating Leaf Eco Retreat, everything we do is rooted in principles that honor tradition, community, transformation, and conscious stewardship. These values guide how we welcome guests, how we support retreat leaders, and how we participate in our village and environment.

- **Authenticity & Cultural Respect**

We honor the spirit of Bali by partnering closely with our local village, preserving tradition, and offering experiences guided by lineage holders and true cultural practitioners.

- **Transformation Through Presence**

Our spaces, rituals, and practices are designed to soften the nervous system, open the heart, and support meaningful emotional and spiritual awakening.

- **Sanctuary for Leaders & Their Work**

We understand the depth of transformational facilitation, and we create an environment where retreat leaders feel supported, empowered, and held — not burdened by logistics.

- **Conscious Living & Stewardship**

Floating Leaf is built on principles of sustainability, community empowerment, and environmental responsibility. Every choice reflects our commitment to being good stewards of the land and culture.

- **Connection & Community**

We believe healing and transformation flourish in environments of genuine connection — with ourselves, with others, with nature, and with spirit.
